

HIGH TORQUE LUG NUT REMOVER

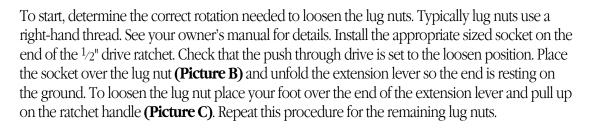

Thank you for choosing this fine product from Griot's Garage. The **High Torque Lug Nut Remover** is designed to help remove over torqued lug nuts with minimum effort. It does this by using a 1:3.5 torque multiplier that provides maximum torque **(Picture A)**. The extension lever is used to remove hubcaps and provides a foothold during lug nut removal. Enjoy the best.

USEFUL INFORMATION

Material: Chrome Vanadium (head).

Ratchet: **60-tooth push through** ½" **drive** to reverse rotation direction.

Max Torque: 480 foot-pounds (650 Nm).

<u>CAUTION:</u> The **High Torque Lug Nut Remover** was designed to help remove lug nuts. Always use a properly calibrated torque wrench to tighten lug nuts to your vehicle manufacturer specifications. See your owner's manual for details.

DISCLAIMER

GRIOT'S GARAGE is not responsible for any misuse of the **High Torque Lug Nut Remover** for any injury or damage incurred to any person or object related to the **High Torque Lug Nut Remover**.
