

MOD™

modular brush system

SURE-GRIP™ HANDLE

Featuring the MOD Link, a threaded attachment system, this handle pairs with three brush head types: Detailing Brush Heads, Flat Detailing Brush Heads, and Detailing Wands. Also compatible with handle modifiers.

HANDLE MODIFIERS

HANDLE EXTENSIONS

These 4" extensions attach to your handle and can stack, offering extra length for those hard-to-reach areas.

ANGLE ADAPTER

This adapter attaches to your handle, providing a 60° offset so you can easily access recessed and contoured surfaces.

1 - VERY SOFT | 10 - VERY STIFF

DETAIL BRUSH HEADS

Clean the finer details of your vehicle with extreme precision using these tightly packed heads.

SUPER-SOFT

Flexible synthetic bristles, great for light-duty cleaning. Use it to detail chrome emblems, dust infotainment screens, apply dressings to a dash, and more.

SOFT

Semi-flexible horsehair bristles, great for light to medium-duty cleaning. Use it to clean out vents, dry brush carpet debris, apply interior trim dressings, and more.

MEDIUM

Semi-rigid boar's hair bristles, great for medium-duty cleaning. Use it to clean grimy door jambs, apply dressings to rubber seals, and more.

FIRM

Rigid hybrid bristles, great for medium to heavy-duty cleaning. Use it on extra-greased-up lug nuts and other tough areas that need muscle.

HEAVY-DUTY

Very rigid synthetic bristles, great for the toughest jobs. Use it to scrub down low profile tires, clean battery terminals, and agitate heavily soiled textured

1 - VERY SOFT | 10 - VERY STIFF

FLAT DETAIL BRUSH HEADS

Detail the larger surfaces of your vehicle faster with more coverage using these dense, fanned heads.

SUPER-SOFT

Clean carbon fiber wheels, chrome trim, and apply dressings to convertible tops.

SOFT

Condition leather seats, dust interior trim, apply dressings to the center console, and more.

MEDIUM

Detail exterior paint, scrub wheels, apply dressings to textured plastics, and more.

FIRM

Scrub grills, engine bays, greasy wheels, and tackle other high resistance surfaces.

HEAVY-DUTY

Clean tires, agitate wheel wells, scrub undercarriages, and break down heavy grease.

MICROFIBER DETAIL WAND HEADS

Soft, premium microfiber that is gentle on delicate surfaces. Use on your wheels, engine covers, exhaust tips, rocker panels, or any large surfaces.

PAD CONDITIONING BRUSH HEAD

Flexible nylon bristles gently work into your polishing pads to remove built-up polish, paint, and wax. This helps extend their lifespan.

COLOR APPLICATION RINGS

EXTERIOR APPLICATION RINGS

Exterior rings help you assign each brush to a specific task or chemical, keeping you organized and your surfaces safe.

INTERIOR APPLICATION RINGS

Interior rings help you assign each brush to a specific task or chemical, keeping you organized and your surfaces safe.
